

## Gilbert Meher

---

**Location:**  
Leeds

**Contractor:**  
Time Limit Interiors

**Architect:**  
RUCreative

**Komfort Product:**  
Polar Single Glazed  
Kross Glaze

**Background:**

Gilbert Meher is a trusted Executive Search & Selection Consultancy based in Leeds. Wanting their UK based offices to match their dynamic company, Gilbert Meher approached Time Limit Interiors for a complete refurbishment.

**The Building:**

Situated at the heart of Leeds's Commercial Core, One East Parade commands a prime and prominent position. One East Parade has recently undergone a major refurbishment to create brand

new, contemporary office spaces to suit all potential occupiers.

**The Brief in Brief:**

Following the recent interior market trends, the brief was to create an industrial style space with concrete flooring and open ceilings showing the mechanical duct work. A key requirement for this refurbishment project was to have multiple break out and fun zone areas to encourage a collaborative, and team building working environment.

**Komfort's Solution:**

To realise the industrial style, Time Limit Interiors installed Komfort's Kross Glaze, crittal style glazing on the meeting rooms. Available in a range of options, Kross Glaze Single Glazed Polar was selected for this project to achieve the aesthetic and acoustic requirements of the design.

**The End Result:**

Meeting the brief's requirement, the completed project is finished to an impressively high specification. Gilbert Meher's refurbished offices have encouraged a collaborative working style amongst the occupiers, reflecting the company's ethos and brand. It was a pleasure to work in collaboration with Time Limit Interiors and we are delighted with the end result.
