

## The IO Centre

---

**Location:**  
Banbury

**Contractor:**  
Tapper Interiors

**Komfort Product:**  
Polar Single Glazed  
Kross Glaze Applied Bars  
Double Glazed Sonik Doors

**Background:**

Tapper Interiors are industrial and commercial interior fit-out specialists offering complete solutions from design to handover. To reflect their dynamic and forward-thinking brand, Tapper Interiors wanted a complete fit out of their new and larger premises to showcase their expertise in the interior fit-out market. As part of this fit out Komfort's partitioning and doors were used throughout.

**The Brief in Brief:**

As part of the office refresh, Tapper Interiors wanted to achieve a contemporary style office working environment which achieves impressive acoustic performance. Following recent industrial style interiors, the brief included exposed brickwork, wooden wall panels, black pendant lighting and more.

**Komfort's Solution:**

To meet the brief, our Project Specification team met with Tapper Interiors to understand the design and performance requirements they required from their new premises. It was agreed that Komfort's Polar Single Glazed partitioning and double glazed Sonik Doors with the Kross Glaze visual would deliver on the aesthetics, but also the performance. These systems were installed on the front reception and meeting rooms.

Our Polar Single Glazed system was selected for its proven and reliable performance credentials and ease of installation. In conjunction with this, our double glazed Sonik Doors were installed to enhance acoustic performance levels of up to 38dB (Rw).

Crittall style glazing has dominated the commercial and residential market trends over recent months with its contemporary Art Deco feel. To meet the client's design brief of an industrial style environment, our Kross Glaze visual was applied to both the inside and outside of the Polar Single Glazed partitioning and the Sonik Doors.

**The End Result:**

The project was completed to a high specification, meeting performance requirements and design ambitions. This working environment now provides an inspiring space for the occupants and encourages collaboration and productivity levels.

It was a pleasure to work with Tapper Interiors and we look forward to working on future projects together.
