Think Partitioning.
Think Komfort.

Edition 4
50th Anniversary

50 Years of Komfort

Komfort divide spaces by designing and manufacturing internal glazed and solid partition systems with integrated doorsets.

We are quality UK manufacturers, proud of our long standing relationships built on service, flexibility and technical support.

Our knowledgeable and experienced specialists deliver the architect's vision through our extensive contractor network.

In 2023 we celebrate our 50th anniversary and look back at the last half century of Komfort products and projects.

Think
Partitioning.
Think
Komfort.
1973-2023

50 Years in the Partitioning Business

No-one knows more about the early history of Komfort Partitioning than **Barry Bates**, who founded **Komfort** in February 1973. His core product then was the Komfort 600 series, closely followed by Komfire, which are still firm favourites today.

Starting with only a few hundred pounds, Barry guided and grew Komfort throughout the 70s and 80s finally selling in 1989 with a turnover of £21m.

Many people still working at Komfort remember his incredible drive and commitment, as well as his pure grit and determination. A force to be reckoned with.

Jim Smith, Komfort MD

“Since becoming Komfort's MD in 2020 I have been on a mission to position Komfort at the cutting edge of partitioning design, modern manufacture and architectural specification. My vision is to continue to bring true innovation to the partitioning marketplace.

The future for Komfort is bright and I am excited to evolve and grow the business over coming years.”

Karen Sergi, Sales Office Supervisor

Karen's career at Komfort spans 37 years and saw her celebrate her 21st, 30th, 40th & 50th birthdays with her colleagues at Komfort.

“I have complete confidence in the quality of Komfort engineering, manufacture and our ethos of continuous innovation. However, it is the level of customer service that I think is unique, this is what keeps customers coming back, to where our word is our bond.”

Satbir Ghuman, Technical Co-ordinator

Satbir trained as a mechanical engineer before joining the team at Komfort as a draftsman in 1987.

“Back then your initial role was never the whole job description, so I played a central role in procurement, developing the BSEN quality procedures and in supporting the production team on the floor with machining and manufacture.”

Satbir is everyone's go-to person for product information and is the voice of Komfort technical support.

600 Series 1973-2023

Our first product and still
going strong
